English

Directions for use:

Developed for use on turfgrass. Restores natural green colour to discoloured or damaged turf while giving the turf a healthy green appearance for special events. Safe and easy to use - non hazardous.

Application Guidelines:

Specially developed for use on turfgrass, restores natural green colour to discoloured or damaged turf. Lasts for 2-3 months, mowing will gradually remove product from the grass.

Application Rates:

Lighter colour: 0.75-1L/ha in 300 Litres of water, apply as needed.
Darker colour: 1-1.5L/ha in 300 Litres of water, apply as needed.
Divot mix: 250ml in 750ml of water for 50 kg.

Storage:

Minimum Temp.: 5 °C - Maximum Temp.: 30 °C

Guaranteed Content:

Acrylic Polymer, Green Pigment and UV Absorbers.

Health & Safety:

The product is not classified as hazardous.

Decontamination procedure:

In the standard decontamination procedure, spraying equipment is washed with a 10% TourTurf® APC solution, firstly the tank is emptied then filled with water and TourTurf® APC, agitated, drained, and rinsed. Detachable parts soak in a 1% solution. For full decontamination, a 24-hour soak in a 1-2% solution is added, followed by rinsing and reassembly.
